

## Illustrator Basics

1. Draw a box, a circle, and a star.
2. Using the White Arrow tool, double-click to isolate shape points. Warp shape(s) as desired. Transform shapes with various tools
3. Make two shapes, and overlap them. Select them with the black arrow tool. Make 4 duplicates, so you have 5 sets of shapes. From the menu under "Window" select "Pathfinder": Add the first set, Subtract the second, Intersect the third, Exclude overlap the fourth and Minus Back the fifth.
4. Using the Type Tool "T", make a text box. Type the word "Outline". From the menu under "Type" go to "Create Outline". The text is now a scalable shape. Transform the type.

With the supplied materials:

5. Using the Pen Tool, trace the heart shape so that it will be a vector.
6. Trace the bowling pin in the same manner.

### CHALLENGE

\*\*\*Your skills are deadly if you can do the bowling pin in 6 moves\*\*\*
