

Illustrator Basics

1. Create a heart using the pen tool
2. Put text on a circle
3. Put text in a circle
4. Run text along a curved line.
5. Create a 3" tall headline of the word "Headline" in Helvetica Bold by converting type to outlines - make the fill red and the outline blue. Change the stroke to 4.
6. Place a print-ready Photoshop document on one layer. Place text on another.
7. Create a Square. Create a Circle that overlaps the square slightly. Use pathfinder to create a continuous path. Fill the shape with blue. Make the outline Black with a stroke of 5.
8. Create another Square. Create another circle that overlaps the square. Use Pathfinder to create 3 shapes. Fill shape one with blue. Fill shape 2 with green. Fill shape 3 with red.
